GUARANTEE & SOLVENCY

Only one leader as Ibernex can give guarantee of futures with **technical support 365 x 24 x 7 through** our extense network of specialists. Security knowing we have the support of **Pikolin Group.**

Pikolin Group

Pikolin is the Rest market leader in Spain, Portugal and France.

Ibernex belongs Pikolin Group, becoming the technological Branch in the Holding.

The group has a clear bet for the healthcare sector, generating synergies between the trademarks creating clear advantages..

With Pardo, Group's sister company, Ibernex has developed the most complete market solution for your center romos.

Pikolin Group has an anual turnover of 440 million € and owns 10 factories distributed among Europe and Asia with more than 3.000 employees.

We are what our Team is.

Our people is in the center of any decision, in order to find new solutions and in order to incorporate new team members.

Every year our team is bigger and has more quality, with more tan **40 persons** between internal and external fully time workers.

We combine this experience with **energy, captation and evolution of new talents.**

We have a powerful collaboration structure , **highly compromised and for long term**, with the objetive of constantly improvement for the healthcare sector.

International Growth

Our eyes are on the future and international growth. For this reason, with 30% of international turnover reached, we have the projection of reaching 50% of international turnover of the total.

More than 66 international projects executed in a total of 11 countries.

Specialists network

The best network of distributors and specialists trained, trained and assisted by the Ibernex Specialists Certification Plan. An extensive network of companies in constant growth and training that make us visible in 23 countries.

Operative Model

Our advanced operating model allows us to guarantee a typical delivery time of less than 4 weeks.

This production model has different production units that give us flexibility and help us to cope with large productions. A bidirectional commitment with which both Ibernex, as well as these units, are nurtured and strengthened.

Thanks to it, we have managed to achieve the highest standards of integrated quality: 99% of our manufactured products have 0 defects.

Ibernex: We are manufacturers

Own design, development and production, both of electronic devices and software.

Manufacturer in Spain, based in Zaragoza and complying with all European standards and requirements.

Flexibility and adaptability. Manufacturing our solutions facilitates continuous improvement, adaptation to any project and the possibility of responding in reduced times.

Quality and guaranteed guarantee. Robust solution with market path.

Completely safe. Adapted to current security and cybersecurity needs.

Who do we direct to?

From a small Nursing Home to a large hospital, Ibernex adapts to the needs and dimensions of:
